

Georges Duverger

Simplicity engineer

I've survived years of engineering school. I've witnessed the public and the private in HCI (Human-Computer Interaction) labs and inspiring start-ups. In a quest for fresh air, I left the old continent to craft Web applications into new territories.

Experience

- User Interface Developer** at Akoha (2+ years) 2007–2009
Founding team of an alternate reality game — a launchpad for random acts of kindness.
- Researcher** in HCI labs (1 year) 2005–2006
Study on the plasticity of user interfaces — the ability of UIs to adapt to different contexts of use.
- Web Developer** at GLC Web design (6 months) 2003
Agency work — websites and administration interfaces for clients.

Education

- Engineer** in CS and Multimedia Communication (3 years) 2004–2007
École Polytechnique de l'Université de Grenoble, France
Concordia University, Montreal, Canada
- Technician** in CS and Communication Network (2 years) 2002–2004
Université de Savoie, France

Specialties

- Interaction design Paper prototype, flow diagram, and wireframe
- Web standards HTML/XHTML/XML, CSS/XSLT, JSON
- Typography and grid-based layout Blueprint, YUI CSS, LESS
- Client-side scripting JavaScript, jQuery and plugins
- Server-side scripting Plain and object-oriented PHP, CodeIgniter, MySQL

Address: 6637 rue Boyer, H2S 2J5 Montreal, QC, Canada
